

School Notes

Richard starts this week and it is possible that many mothers throughout the province will breathe a sigh of relief. At least 700 children are in the hands of the school system and the mothers will be free of worry, knowing that for some part of most days the children will be under supervision and out of trouble.

This may be a very lofty view to take of our educational system but, so far as observation goes, it is a rather general feeling. Moreover, those who have grown beyond the care of children, as well as those who never have had children, have a faint idea of the strain placed upon mothers by the everlasting calls and wants of the smaller tots, especially as they approach the age of school attendance.

As the years roll on, more and more children are enrolled in Alberta schools. About 65,000 six-year-old students started on Tuesday, according to Edmonton education officials, and this source is also responsible for the statement that some 175,000 children—an increase of about 3,000—will enter Alberta's class rooms this term.

In these days of education for the masses and, in many cases, advanced university training for a fair proportion of our young people, it is as well to remember that such was very far from being general forty or more years ago. The belief that education was a privilege of the wealthy, however, exploded long ago. Even had it been so, the advantages were not always accepted and, in this connection, a good story was told by a former teacher, minister of education when addressing a convention of teachers.

It appeared that in the course of his duties, a school inspector was staying as guest at the home of the local squire and, over the dinner table one evening, took occasion to relate the day's experience of his examination.

Before leaving for lunch, he had written upon the blackboard a question—"Who signed the Magna Carta?" On his return, however, he requested an answer from the class. No reply came until a small urchin held up his hand. "Fifteen," he said, "I did."

The old squire had listened attentively to his guest and there was a momentary pause. Then he spoke. "Those boys are fearful lads," he said, "I expect he did, you know!"

A firm of motor car dealers advertising over the air a short while ago reminded prospective purchasers that "a good car is a sign of prosperity; the same as a good house and as are good furnishings."

It was W. S. Gilbert who told us that "Things are seldom what they seem," and that "Skim milk mannequers are cream."

Many years ago, when four dwellers were rarely among praise dwellers, we were introduced, as a favor, to "a nice gentleman from Galden," resident of far-flung coast, boasting an Australian collar. To the sorrow of quite some few, his affable propensity was at the expense of his virtues.

Dr. J. H. Craigie Honored

Dr. J. H. Craigie, internationally known as an authority on cattle when attack several crops, was recently honored by both Canadian and American universities. He had conferred upon him by Dalhousie university the degree of LL.D., and the university of Minnesota, where he obtained a Master of Science degree in 1935, presented him with their Outstanding Accomplishment Award. Dr. Craigie, who has been with the C. C. C. since 1925, is now Chief of the Division of Soil and Plant Pathology, Science Service, Ottawa.

Glemping, with less than 11,000 acres, is the smallest federal electoral division in Canada.

Obituary

Marie Hepburn Morrison

Who died on Saturday, August 25, following a lengthy illness, was of Scottish ancestry, and was born at Aberdeen, Scotland, on July 24th, 1861, and was thus 70 years of age. The deceased emigrated to Canada in 1900, later going to the U.S.A., where she was married in New York. In 1908, the family came to Calgary, and to the present residence, where she has since resided. In 1908, The late Mr. Morrison was of a kindly and retiring nature and will be mourned by a wide circle of friends. Pre-deceased by her husband, Alexander, in 1940, she is survived by four sons: Alex, of Halkirk; John, Robert, and Douglas, of Regina, Sask., and Mrs. W. H. Sloan, of Delta. Also a brother, Frank Hepburn, of Aberdeen, Scotland; three sisters, Mrs. Bella McKenzie, Aberdeen, Scotland; Mrs. Margaret Forsyth, Auckland, New Zealand; Mrs. Lenora Sher, Portland, Ore., and eight grandchildren.

May 1, 1946, she died, was buried in the R.C.A.F.

Funeral services were held in Delia United Church at 2 p.m. on Tuesday, August 28th. Rev. H. G. deLewue had charge, assisted by a full choir.

Interment took place in the family plot at Delia cemetery.

Pallbearers were—John Simpson, Johny Battie, Bob Milne, D. H. Campbell, Andrew Grant and Jack Sinclair (Hanna).

Whyte Funeral Home, Hanna, had charge of arrangements.

Farrell Lake News

Bill Hillier and son, from Calgary, spent a week with their father, Hugh McLaren, and the family.

Mr. and Mrs. L. Olsen visited at the home of Mr. Charles Phillips last Sunday.

Mr. and Mrs. Chester Carnegie spent last Wednesday evening with Mr. and Mrs. Oscar Nil.

Mrs. Lily Lyle and sons were visitors of Mr. and Mrs. Bill Reeves, of Brymore last Sunday.

Mr. and Mrs. Raye Swept and daughter were Hanna visitors last Monday.

Keith Jamieson, of Cornhill and Jamieson (building contractors, Calgary), was a business visitor in the neighborhood last Monday and Tuesday.

Mr. and Mrs. O. R. Larson and sons were guests of Mr. and Mrs. Oscar Dahl last Monday evening.

Mrs. Hanna Munroe and daughter, Marjorie, were guests of Mr. and Mrs. Oscar Dahl last Sunday.

Bill Hillier, of Calgary, was a week end visitor of Mr. and Mrs. Archie McLaren.

Mrs. Margaret Armstrong and sister, Miss Katherine Walker, were guests of Mr. and Mrs. Oscar Dahl and family last Sunday.

Harry Nelson motored to Edmonton last Saturday and Sunday.

Mr. and Mrs. Leonard Sverdrup and family were guests of Mr. and Mrs. Oscar Nil last Thursday evening.

Miss Louise Sverdrup is a guest of her aunt and family, Mr. and Mrs. P. J. Pogore, of Brymore.

In L. H. Pegmore, that the human brain begins to function from the moment you are born, improves as you grow older, then stops completely when you stand up to talk!

Going over the Yellowhead Pass—altitudes 8,717—the C.N.R. crosses the Rockies at the lowest altitude of any railway in North America.

Canned Kangaroo

A special luncheon recently arranged in Melbourne, the main course consisted of baked kangaroo steaks cooked with herbs, served with mushrooms, after being marinated in vinegar and spices for a week before cooking. The meat was said to have a delicate and distinctive flavor, and it is hoped that in time a new Australian food industry will develop from the export of canned kangaroo to Britain and the United States.

PHONE 24, DELIA

Majestic-Farrell Lake W.I.

The Majestic-Farrell Lake W.I. met at Springwater School on August 24. Twenty-four members and eleven visitors were present.

Reports were given by the Flower Girl, Mrs. A. Beaton; Mrs. W. A. Hoover, the Princess of the annual July picnic; and Mrs. Long on lunch served at a local sale. A hearty vote of thanks was tendered to the lunch committee.

The Conveners of standing committees presented interesting reports on various subjects, as follows—

Agriculture—Mrs. W. A. Hoover, on Fertilization of Garden Vines.

Health—Mrs. M. Newman, on Appendicitis.

Education—Mrs. M. Sandberg, on New Education methods.

Home Economy—Mrs. McMurich, on Hostery statistics.

Social Service—Mrs. Carson (Mrs. Bolden), on Dr. Hutchinson.

Handicraft—Mrs. E. Lempert, on Worn Fibers and Buttons.

It was decided that Mrs. Shatz District Home Economist, would be asked to be a guest at the September meeting.

Mrs. B. Lempert resigned from the duties of secretary, and was given a hearty vote of thanks by all the members for "a good job well done." Mrs. H. Hoover was elected as new secretary.

Mrs. M. Sandberg, delegate, reported to the County Home Conference held in Drumheller.

A presentation was made to Mrs. F. H. Hinde in appreciation of all the interest, work, and efforts taken to promote activities not only for the W.I., but the community as well.

Following the adjournment, the old-timers of the district were honored—the speakers being the President, Mrs. W. A. Hoover, and Mrs. V. Davis. A well planned program was enjoyed by all.

Mrs. D. Shand won the quilt, and Mrs. C. Lawrence won the surprise parcel.

Ontario To Import

Ontario's minister of agriculture, Hon. T. L. Kennedy, said recently that Ontario will need to import 60 million pounds of feed grain and 150,000 tons of cattle from western Canada this year.

A chassis radius may weight as much as 60 pounds.

Standard Sunday Times

Kinross, Ont., Sept. 1-5, one type of complaint came from a town at Kinross, a Canadian West Railway terminal point on the shores of Lake Huron. He objected because the standard on the moment adjusting the Kinross and office was six hours less than the matter was closed up when it was explained to him that minds don't keep Daylight Saving Time.

Cornac Grains Plebiscite

Mr. Douglas Campbell, Premier of Manitoba, recently told a session of the Canadian weekly newspaper convention that farmers in Manitoba will shortly be asked to vote by means of a plebiscite on the following question: "Do you wish to sell your natural barley as present?"

Premier Campbell explained that the Manitoba Government did not think that the Provincial Legislature asked for by Mr. Hume, Minister of Trade and Commerce, was necessary. Nevertheless the Manitoba Legislature had passed the provincial legislation which Mr. Hume asked for by which Manitoba agreed to have cornac grains produced in Manitoba marketed by the West Board.

Since then, Premier Campbell explained, there has been a good deal of controversy in Manitoba about the whole question, and the plebiscite is to find out what farmers really want.

The trouble in my opinion is that farmers cannot really answer this question intelligently, because few of them are aware of what it all means. Hence efforts are being made by certain organizations to have farmers vote "yes," but if the Government really wants a fair and proper vote, it seems to me the Government should make arrangements to have farmers acquainted with all sides of the matter, so that they could give a fully informed answer.

Blackleg in Potatoes

Stomach in potato growing depends to a large extent on the control of disease, says W. Lahar, Supervisor of Crop Protection, Alberta Department of Agriculture. A bacterial disease that is common in Alberta, especially in the irrigated and older sections, is blackleg.

Affected plants are first noticed through their somewhat smaller size and yellow foliage. Quail also there will be a rolling of the leaves. Examination of the stem shows a swelling of the ground will show a swelling of the stem.

The tubers often develop a soft rot beginning usually at the stem end. Infected tubers will rot in the field and in storage where conditions are favorable for the disease.

The only satisfactory control consists of roguing out affected plants. When roguing make sure that all the tubers under an infected hill are removed. Frequent roguing is necessary, since newly infected plants will appear as the season progresses. Tubers from fields badly infected with blackleg should not be held for seed.

Used Machines

Police On Alert For Reckless Motor Car Drivers

When motor car accidents are continuing to take a heavy toll in Alberta and other provinces, traffic experts are giving increased attention to safety measures.

Officials of the Alberta Motor Association stress the fact that with a steadily increased volume of motor traffic this summer, there is a particular danger in "take it easy."

It is some satisfaction to hear that police forces are on the alert and that the number of officers has been increased on main highways to check speeding. Nevertheless, motorists still are protesting over the flagrant violations of the traffic act by reckless drivers.

One traffic expert points out that at a speed of 80 miles an hour, a car cannot be stopped in less than 60 feet. If the car is travelling at 60 miles an hour, it cannot be stopped in less than 226 feet.

The distance a car travels from the time the brakes are applied until it comes to a full stop is known as the braking distance. At 40 miles an hour the braking distance is 71 feet while at 30 miles an hour it is 18 1/2 feet. Worse still, bad brakes, slippery roads, all increase the braking distance.

WILL OPEN HER MUSIC CLASS IN DELIA ON SEPT. 5

She has just returned from Vancouver, where she was taking a Master Course in Music from Mrs. Bertha Benson and Mr. Bertha Benson, both of Royal Conservatory of Music, Toronto.

HEFTY HAULER

that's quick on its feet!

GMC TRUCKS

in 10 to 15 tons

Your key to greater hauling profits

You want a truck that has plenty of huf for the pay-load—but the right kind of power is the clincher.

That's why so many truckers turn to GMC for swift performers that can pack home the pay load.

For in these broad-shouldered carriers—chassis and engine are yoked together to form a perfect team for hauling, a team that's built for keeps!

The result is a great line of trucks—from nimble 1/2-tonners up to brawny Diesels with two-cycle efficiency, with horsepower unsurpassed in their class, that

has made them the talk of the country's truck men.

That's why—whether your cargo is compact or bulky, liquid or solid, grain or cement—if you load it on a GMC, you deliver it faster at less cost per mile!

As your GMC dealer, we can give you the long-time benefits of the right combination of axle, engine, transmission and frame for the loads you have to work—skillfully engineered by the world's largest exclusive manufacturer of commercial vehicles.

BLAZING WRACKAGE OF AN SEVEN B-50 BOMBER—A huge cover of smoke rises from the blazing wreckage of an SEVEN B-50 bomber after it crashed into a hotel apartment building in Seattle's south and industrial belt in charred ruins at least 30 of the apartments that housed 60 persons. Firemen battled the blaze for almost seven hours before reporting it "all but out."

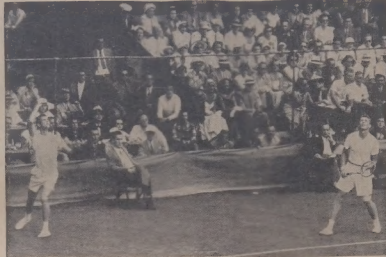

HIGHLANDERS OFF FOR "OLD BEEHIVE"—Kilted springing rhythmic to the beat of the pipes, the band of the Argyll and Sutherland Highlanders from Hamilton, Ont., staged a show rehearsal on the roof of a New York hotel a few hours before their scheduled take-off to a fight in Scotland, known to them as "Old Bessie". They are going for the first gathering of the clan to be held in 300 years, being staged in connection with the Peace of Britain. About 10 representatives of Scottish clan organizations from Canada and the U.S. are attending.

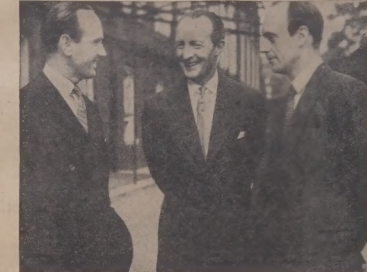

CANADA REPRESENTED AT U.K. CADET RALLY—Many of the 300 air cadets from British Commonwealth countries and U.S. who attended a rally at White Waltham aerodrome, England, flew thousands of miles to French their destination. Group of representatives met standing before their national flags, left to right: Lt. Lawrence (Crested Island), G. Parley (Melbourne, Australia), D. Richardson (Kerang, Pakistan), S. Sarad (Punjab, India), R. Gale (Chagow), and S. Wilson (Calgary, Alberta, Canada).

NEW PORTUGUESE PRESIDENT—General Antonio Lopes, (left), is shown here returning a guard of honor salute on entering the Portuguese National Assembly at Lisbon shortly after taking the oath as Portugal's new president. At his side is the country's strong man, Premier Antonio de Oliveira Salazar.

CANADA OUSTED—Budge Patty of the U.S. waits for a high ball to come down out of the skies while Tony Trabert, his partner, looks on. The Americans won the doubles match as well as the four singles matches with-out yielding a set to the Canadian team. Action took place at the Mount Royal Tennis courts in Montreal.

THEY PAVE THE WAY FOR ROYAL TOUR OF CANADA—Looking forward to the day when they will accompany Princess Elizabeth and Prince Philip on their month-long Canadian tour, three members of royal household discuss details of approaching tour, in grounds of Clarence House, London. Left to right are: Lt. Col. Michael Parker, R.N., secretary-in-waiting to the Duke of Edinburgh; Lt. Gen. Sir Frederick Browning, controller and treasurer of Princess Elizabeth's household; and Major the Hon. Moritz Charteris, Princess Elizabeth's private secretary.

RECORD FLIGHT—The huge U.S. Navy Viking rocket soared into the stratosphere for a record 120 miles at an estimated speed of more than 4,100 miles per hour. A Navy crew is shown above making final preparations for flight. The waiting attended to the forward part of the missile supplies external electrical power for the last-minute checking of instruments. The rocket falls away as the rocket engine starts. The crane (foreground), is used to hoist the rocket into take-off position.

COMPARING THE NEW WITH THE OLD—High-ranking British and Allied officers were on hand at Warminster, Eng., recently, to examine the new 280 service rifle adopted by the standard rifle for all the Western allied armies. Here, two British soldiers display relative merits of new 280 rifle, (left), and the old. British officers claim that, among many advantages of new weapon are its higher rate of fire and lighter weight.

H.M.C.S. NORTHA HOMEWARD BOUND—Flying a huge Japanese ensign, (background), instead of the traditional home-ward-bound pennant, the Canadian destroyer escort Northa makes a brief visit to Los Angeles en route home from Korean waters. On deck, boarded Able Seaman Lloyd Williams of Ottawa and Ramsey O'Leary of Toronto, N.S., try to get "bummy," the ship's mascot, in pose for his picture.

CANADIAN SCOUTS "GO AUSTRIAN"—Having a wonderful time, you were told, were the Canadian Scouts, (left), of Winnipeg, Man., and at right Douglas Cameron, 17, of Hamilton, Ont.—Central Press Canadian.

Three thousand British Boy Scouts arrived in Bad Ischl, Austria, and set up camp near the Austrian Alps for the opening of the Seventh World Scout Jamboree. The boys, after a 20-hour trip by train, disembarked and immediately pitched into their chores. Here Geoffrey Cox, aged 16, Birmingham, looks on while Neil Harz, aged 16, cleans his oil lamp.

INDIANS SIGN PLEDGE WITH THEIR BLOOD—Four thousand men, declaring that they will back the Indian government in any emergency and say foreign aggression. Above, Mahan Deyviran, secretary-general of the Hindu Mahasabha, which sponsored the gesture, has blood drawn from a finger to sign the pledge.

KNOWN BY THE COMPANY IT KEEPS—Longshoremen at Staten Island, N.Y., turned down fancy overtime pay in their displeasure at loading a cargo, which they claimed was ammunition, on a 740-tonner freighter. The longshoremen, (above), Italy refused to load the ship which was due to leave New York harbor shortly, claiming that aboard was their friend Salvo's plane and Soviet weapons in the sinking zone. As a result, the sailing of the ship was delayed indefinitely.

ICEBOX IN YOUR HOME?

Writing in the Manchester Guardian special correspondent who has recently returned from a visit to Canada, subjects the Massey Commission report to a general analysis. He writes with sensitive irony about this self-conscious solemnity with which some Canadians pursue their ideal of national culture. This mixture of irony and understanding, in fact, can well be copied by Canadians. Stevenson once claimed, with a touch of exaggeration, that if your morals make you dreary, you may depend upon it that they are wrong. Few things are drearer than the pretensions of Canadians in quest of their national soul. A bit more gaiety, and capacity for detachment, on the British model would be very serviceable.

There is one passage about Canada, which deserves quotation. "It is no matter for surprise," declares the Guardian writer in speaking of Canada, "that she is a very long way still from an adequate and intelligent grasp of her own history. And it is taken more the report and these papers appear, that the fact, that, generally speaking, Canadians are a busy, practical, other-minded people, little given to reflection. A Canadian here is more certain to contain an icebox than a book." There is just enough truth in this criticism to hurt.

—The Winnipeg Free Press.

Local and District

Joe Meyers was a business visitor in Edmonton last week.

Mrs. and Mrs. Wm. Gibson spent a few days in Calgary last week.

Mrs. Wm. Hall and family returned Saturday evening from a two weeks' vacation in Vancouver, B.C.

Terry Hodson, nephew of Mrs. Martin Jodry, presently employed in Calgary, visited Delta over the week end.

Miss Mary Morrison returned to Regina Tuesday night, after attending the funeral of her mother last week.

Mr. and Mrs. R. L. Crowther, from Medicine Hat, spent the week end at the home of the former's parents.

Cecil Thompson left for Edmonton last week end, to register on September 4th at the University of Alberta for the final term of his course in dentistry.

Mrs. M. E. Swayne left on Wednesday morning's train for a visit to friends in Calgary, following which she will return to her mother at Lethbridge, Que.

Leroy Humphrey, of the Delta Farmers' Co-operative store, was visiting in Red Deer over the holiday week end, and returning on Monday.

Mr. and Mrs. James Beggie and Shirley, of Calgary, returned Sunday morning's train after spending a few days as guests of George Beaton and Mrs. Rachel Beaton.

Following the holiday vacation, Delta United Church Sunday School will resume Sunday next, September 9. It should be noted that attendance will be at 10:30 a.m., instead of the customary hour of 11 a.m.

F. C. Richert, accompanied by Mr. and Mrs. George Lowe, of Calgary, motored up to attend the funeral of Mrs. Alex. Morrison, followed by train Tuesday this week due to the state of the roads.

Heavy rain fell intermittently every since Tuesday last week until the early hours of Monday. Heavy crops are down and, in some cases, reported to be twisted. But service, which for some time has been deranged, was completely suspended last week, and Starland municipality placed a ban on heavy road traffic. A few showers fell Monday afternoon, but Tuesday dawned bright and sunny, causing roads to begin to dry.

Fall Irrigation

Lethbridge Experimental station
Weekly Letter.

The exceptionally large amount of rainfall received during the growing season this year has supplied the moisture needs of most crops, and little or no irrigation has been necessary for forage and late maturing root crops. Present indications are that there will be much use for fall irrigation. Likely crops to be irrigated in the fall are the carry over of moisture from last year was low and the rainfall received this year has been largely used up by the heavy rains experienced. However, where fields were well irrigated last year, the soil moisture content at this time is relatively high, and fall irrigation is not likely to be needed.

The need for fall irrigation can be easily determined by examining the soil down to a depth of at least 4 feet. If the soil at the lower depth particularly is moist enough to form a ball when rolled in the hand, no fall irrigation is needed. If the soil is dry, then fall irrigation is indicated. In irrigating, whether summer or fall, a safe guide to apply enough, and only enough, water to completely wet the soil down to the dry depth of the root zone and over the entire field. For grain, this is 4 to 6 feet.

The amount of water required to achieve this purpose depends on the moisture holding capacity of the soil and the amount of moisture present in the soil at the beginning of the irrigation. For example, if all soil and clay loams will hold 8 inches or more water in 4 feet of soil, then sandy soils have space for 3 inches or so in the same depth.

A useful guide to estimating the depth of water applied in an irrigation is to multiply the irrigating need in ft. per acre by the number of acres covered. This will give the depth of water applied in inches.

Fall irrigations are best applied early, and apart from any local considerations, there are two excellent reasons for completing all irrigations within the official irrigation season, which ends October 2. One is that the water tendering of the project management is afforded some opportunity to make necessary repairs to structure before freeze-up, and the other equally important reason is that seepage is reduced and any ground water is given some opportunity to drain away.

Fall irrigation should be applied where needed, especially on alluvial and pasture lands. However, last results may be expected where late irrigations are applied as soon as possible after harvest, and where the depth applied does not exceed the moisture holding capacity of the soil.

CATTLE ON PASTURE

On many pastures that were grazed here this time last year, cattle are not keeping up with this year's growth of grass. When this is the case it would be wise to cut the mature growth for hay and keep the young growth cutting, advised W. C. Gordon, District Supervisor, Alberta Department of Agriculture. Young grass is superior feed, and this should be allowed to graze the mature holding capacity of the soil.

An exception is where stands have been overgrazed by overgrazing, says Mr. Gordon. In this case the early growth should be allowed to go to seed. This is the means to give the tired pasture a rest and a chance to thicken up.

Rain-forgone shows a marked drop in forage content at this time last year, livestock should be provided with a mineral supplement containing phosphorus. This can be done very easily by putting a two-ton complement bag out in the pasture and feeding half on one side, and a mixture of bonemeal and salt on the other mineral supplement from the other. A roof over the bag to shield the salt will save on the mineral and prevent rapid deterioration.

It is much harder to put out a small amount at a time and refill often, than to put out a larger amount and have it used with moisture.
